

C 200 SERIES ACUTE CARE BED

# \_Safety \_Simplicity \_Stralus

The Stralus C 200 Series Acute Care bed range combines contemporary style with advanced Australian engineering and design. Building on the success of the Stralus Aged Care bed, the Stralus C 200 series is engineered in Australia to meet all Australian Standards and Compliances.

With its clean crisp lines and contemporary look, the Stralus C 200 is designed to meet the needs of the busy acute care environment. These exceptional features ensure that patient comfort and safety are top of mind whilst patient positioning is easily achieved with a range of control options.

Paragon Care offers an extensive range of compatible foam, hybrid and powered mattress surfaces for the prevention of pressure ulcers and the promotion of wound healing.

Supported by our national sales and service network, Paragon Care provides nation-wide support for all preventative maintenance programs, repair work and servicing. This dedicated business unit, Paragon Care Service & Technology, can provide anything from equipment repair and maintenance through to Total Equipment Management covering your company's biomedical engineering requirements.

Offering a full range of complimentary furniture and equipment for complete ward and hospital fit-outs, Paragon Care has the ability to provide consulting for design and space planning, installation services and more. We can assist you with the ideal combination of hospital beds, furniture and other equipment to provide a complete acute care solution.

\_Form follows function

## STRALUS C 200 SERIES

### Bed Features

With its clean crisp lines and contemporary design the Stralus C 200 offers an exceptional feature set.

- Unique curved head and foot boards offer protection and comfort for the patient.
- Fast access to emergency positions including CPR, Trendelenburg and reverse Trendelenburg.
- 3 side rail designs provide options for clinical applications or price points. Choose from full or ¾ length moulded split side rails or metal fold down full length side rails.
- One touch side egress position and ergonomically placed grip handles provide stable support for safer and easier bed exit.
- Integrated automatic battery backup.
- One touch under bed night light maximises patient safety.
- Integrated positioning controls with independent hand and nurse controls.
- Retracting backrest design reduces pressure on abdomen.
- High quality Linak actuators and Tente castors.
- Bed extension standard on all models.
- Range of accessories includes IV pole, self-help pole, oxygen bottle holder, document holder, urinal holder and mattress bolster.

## Technical Specifications

C 220

C 230

### Specifications

Model C 200 Series

IP RATING IP-54

Compliance IEC 60601 & IEC 60601-2-52 Section 9 ED 3

Insulation Class 1, Type B

Safe Working Load 250kgs

Total Weight approx. 147kg

Bed Extension 200mm

CPR Quick Release dampened action when released

Back Rest retracting design reduces abdominal pressure

Side Rails moulded split rails with integrated controls

Positioning Controls built into side rails  
independent hand control  
nurse control unit at foot end of bed

Battery System integrated automatic battery back up

Castor System central locking brake and 1 steer castor

Accessory Sockets x 4 located each corner of bed

Corner Buffers x 4 located each corner of bed

Underbed Lighting control switch built into hand control

### Bed options

Stralus C 220 Moulded Split Side Rails Full Length

Stralus C 230 Moulded Split Side Rails ¾ Length

Stralus C 210 Fold Down Full Length Metal Side Rails

### Dimensions

Overall including buffers 2185 x 1006mm

Mattress Platform 2030 x 850mm

Mattress Size 1980 x 860mm

Side Rail Height 425mm from mattress base

Bed Stripper 300mm

Height Range 385–840mm

Trendelenburg 0–14 degrees

Reverse Trendelenburg 0–14 degrees

Back Rest Angle 0–65 degrees

Leg Raise Angle 0–35 degrees

Castors 150mm Twin Wheel Tente

Underbed Clearance 175mm

### Accessories

AX-IVPOLE-PC IV Pole

AX-SP002 Self Help Pole

AX543 Oxygen Bottle Holder

AX 486 Document Holder

AX510 Urinal Bottle Holder

BOL860200150 Mattress Bolster
